Subject: RE: CFAC Hazardous Waste AOC question
Attachments: Concrete disposal letter mc-rm2.docx

Attached is a draft of the letter I will be sending Roux in regards to Concrete reuse as backfill material in Pot Room #1.

Please provide feedback as soon as possible.

Thanks,
Mike

Subject: RE: CFAC Hazardous Waste AOC question

I don't wish to confuse things but it is my understanding that the AOC does not really deal with management of solid wastes. If you are using the AOC to instruct CFAC that they must communicate with the Hazardous Waste Program regarding the rubble, I don't think that is defensible. I believe the Solid waste Program, under the Montana Solid Waste Management Act, determines placement of solid wastes, clean fill, beneficial use,... Please correct me if I'm missing something.

Tom and Mike,
The MTD number you provided is the EPA identification number of the site. The number for the administrative order on consent is FID 2386. If you have any questions, please don't hesitate to call me.

Subject: CFAC Hazardous Waste AOC question

Mark,

Mike (EPA) is sending a letter to CFAC and wanted to verify that our AOC number is MTD-057561763, would you be able to confirm that? He is stating that the state needs to approve the placement of the concrete rubble into the building foundation void. Please let Mike and I know,

I am looking my files and if I find it I will also confirm with Mike and you, also.

Tom
